

## SAVE ENERGY Shuttle 240299259

### Connections

#### M1

Power supply 220Vac  
(device power supply)

- 1 = Earth
- 2 = Phase
- 3 = Neutral

#### M2

Signal input  
(cable from Control unit)

- 1 = Common (brown)
- 2 = SetPoint 1 Chlorine (yellow)
- 3 = SetPoint 2 Chlorine (pink)
- 4 = SetPoint 3 pH (blue)
- 5 = SetPoint 4 Chlorine – (red)
- 6 = Special functions / Alarm (FreeFunction) (white)

Signal cable from Telepool

#### M3

220Vac outputs  
(feed device management)

- 1 = phase SetPoint 1 Chlorine
  - 2 = phase SetPoint 2 Chlorine
  - 3 = phase SetPoint 3 pH
  - 4 = phase SetPoint 4 Less chlorine
  - 5 = phase Special functions / Alarm (FreeFunction)
- The lower wires are all Neutral

#### M4

220Vac direct output  
(auxiliary power supplies)

- 1 = Earth
- 2 = Neutral
- 3 = Phase

#### M5

Save Energy  
(recirculation pump disabled)

- 1 = Save Energy signal (grey)
- 2 = NO contact
- 3 = NC contact
- 4 = Common

Save Energy pump disabling cable
